Die-Cut Containers, Paper Pallets, Partitions, Inner boxes and Gift boxes .....Page 13

**HPI** was incorporated as Harta Ngiak in 1987, and subsequently in 1990, changed its name to **Harta Packaging Industries Sdn Bhd** to reflect the change in its core business of manufacturing corrugated boards, corrugated cartons, die-cut containers and paper pallets in strategic regions in Northern, Central and Southern parts of Malaysia. Subsequently, a plastic packaging division was included as a mainstream business.

Within a short span of 7 years, **Harta Packaging Industries Sdn Bhd** was listed on the Kuala Lumpur Stock Exchange (now BURSA Malaysia) in 1997 as a wholly-owned subsidiary of HPI Resources Bhd.

Tapping into the food packaging market, **HPI** ventured into the food-wrapper business producing hawker paper, burger paper and paper bags in Year 2000. Further expansion saw the Group spreading its wings overseas to the fast-growing market of Cambodia in 2004 with the set-up of both corrugated carton and plastic packaging operations. As a move to realize the full potential of a completely integrated paper and packaging manufacturer, the Group made a giant leap by acquiring a paper mill which produces various types of paper in Year 2008.

In August 2011, to consolidate the Group's businesses even further, it went beyond boundaries to become a part of **Oji Group of Japan**, one of the largest and most established pulp and paper companies in the world.

Backed by a solid establishment with sound fundamentals, **HPI** is now poised to meet greater challenges more than ever in the highly demanding packaging industry.

## BACKGROUND HISTORY

# CORPORATE INFORMATION

<b>COMPANY NAME:</b>	Harta Packaging Industries Sdn Bhd (164015-W) (A Member of Oji Group)
<b>FACTORY ADDRESS:</b>	PLO 7, Kawasan Perindustrian Parit Raja, 86400 Batu Pahat, Johor, Malaysia.  Tel: +607-454 8333 Fax: +607-454 1555

# QUALITY CONTROL

Boxes reflect the value of the contents. Hence, Harta Packaging views quality with paramount importance. All operations within HPI Group of Companies employ the highest level of quality control in accordance with the ISO 9001:2015 Quality Management System to ensure the utmost quality of our products.

Stringent quality checks on raw materials, printing, die-cutting, right up to finished products are conducted using elaborate test equipment to ensure that the cartons meet all quality requirements of our discerning customers.

## TEST EQUIPMENT

- **BURSTING STRENGTH TESTER**  
To determine the bursting strength of paper, corrugated board and carton.
- **MICRO-COMPUTER COMPRESSION TESTER FOR PACKAGE AND CONTAINER**  
This machine has built-in highly accurate load cell and CPU to enable direct viewing of the force value on display. To test compression level of containers, cartons, etc.
- **MICRO-COMPUTER RING CRUSH / ADHESIVE STRENGTH TESTER**  
Incorporates a highly accurate load cell and CPU to enable direct view of the strength of the specimen on display. Used to test ring crush strength (Vertical & Horizontal) and adhesion strength of paper board.
- **COLUMN COMPRESSION TESTING GRIP**  
Working with ring crush tester to test the column compression strength.
- **DIE - CUTTER**  
Use for preparing the standard specimen for ring crush test or others.
- **SAMPLE CUTTER FOR COLUMN COMPRESSION**  
Use 2 cutters: 1) Parallel Cutter 2) Angle Cutter To get a standard specimen for column compression test.
- **BASIC WEIGHT SCALE**  
Get the required weight of paper or paper board.
