HPI was incorporated as Harta Ngiak in 1987, and subsequently in 1990, changed its name to **Harta Packaging Industries Sdn Bhd** to reflect the change in its core business of manufacturing corrugated boards, corrugated cartons, die-cut containers and paper pallets in strategic regions in Northern, Central and Southern parts of Malaysia. Subsequently, a plastic packaging division was included as a mainstream business.

Within a short span of 7 years, **Harta Packaging Industries Sdn Bhd** was listed on the Kuala Lumpur Stock Exchange (now BURSA Malaysia) in 1997 as a wholly-owned subsidiary of HPI Resources Bhd.

Tapping into the food packaging market, **HPI** ventured into the food-wrapper business producing hawker paper, burger paper and paper bags in Year 2000. Further expansion saw the Group spreading its wings overseas to the fast-growing market of Cambodia in 2004 with the set-up of both corrugated carton and plastic packaging operations. As a move to realize the full potential of a completely integrated paper and packaging manufacturer, the Group made a giant leap by acquiring a paper mill which produces various types of paper in Year 2008.

In August 2011, to consolidate the Group's businesses even further, it went beyond boundaries to become a part of **Oji Group of Japan**, one of the largest and most established pulp and paper companies in the world.

Backed by a solid establishment with sound fundamentals, **HPI** is now poised to meet greater challenges more than ever in the highly demanding packaging industry.
