COMPANY BACKGROUND

Trio Paper Mills Sdn. Bhd (TPM) was incorporated on 17 January 1972 under the Companies Acts, 1965. Our Company is principally engaged in the business of manufacturing of recycled paper for use in corrugated board and carton box products.

The principle place of business of **TPM** is located at Kawasan Perindustrian IKS Tasek, Simpang Ampat, Seberang Perai Selatan, Pulau Pinang.

Corporate Vision

We shall be an International Leader in the Packaging and Paper Manufacturing Industries.

Corporate Mission

Our Group pursues a concentrated growth strategy in our innovative products and services specialization.

We provide our customers with world-class quality products and services in a timely manner at effective cost and competitive price to provide business growth and profitability, and commit ourselves to our communities in which our employees reside a better place to live in.

The Objective

- Expand and improve current uses of paper products.
- To improve the production efficiency and the quality of the products.
- To uphold our responsibility as a caring environment-conscious corporate citizen.

We consider our certification to the **ISO 9001**, **ISO 14001** and **ISO 45001** as a benchmark to forge into the future to create greater customer satisfaction and diversify into new ventures and direction.

Our future plan includes expanding the land area and diversifying to manufacture other industrial paper.

Quality Policy

Trio Paper Mills Sdn. Bhd. is committed to producing products of **HIGH QUALITY**:

- Corrugated Medium Paper
- Core Board Paper
- Joss Paper
- Hawker Paper

through meeting customer requirements, as well as statutory and regulatory requirements.

We believe in **Total Customer Satisfaction by Continuously Improving Our Quality Management System Effectiveness.**

Quality Control

TEST EQUIPMENTS

Micro-Computer Ring Crush - Incorporate a highly accurate load cell to enable direct view of the strength of the specimen on display. Used to test ring crush strength (vertical & horizontal).

Ply Bond Tester - Used to test adhesive strength of paperboard inter layer bonding.

Moisture Meter HK300 - For instant measurement of moisture in sheets of paper.

Basic Weight Scale - To determine the weight of paper or paperboard.

Moisture Meter type DS5-AL - For measurement of moisture in wastepaper.

Water Absorption Tester GT-6015 - For fast determination of the amount of water absorbed by a paper or board in a given time.

Digital Type Bursting Strength Tester – Used to accurately determine the bursting strength of paper.

Digital Micrometer (TMI) – Used for thickness measurements of sheet paper.

Raw Material

Trio Paper Mills Sdn. Bhd. views raw material as one of the most important components in the manufacturing of high quality products. All the waste paper purchased is subject to stringent incoming quality inspection by ways of going through various kinds of tests.

Products

- Corrugated Medium Paper
- Core Board Paper
