

Version 2025

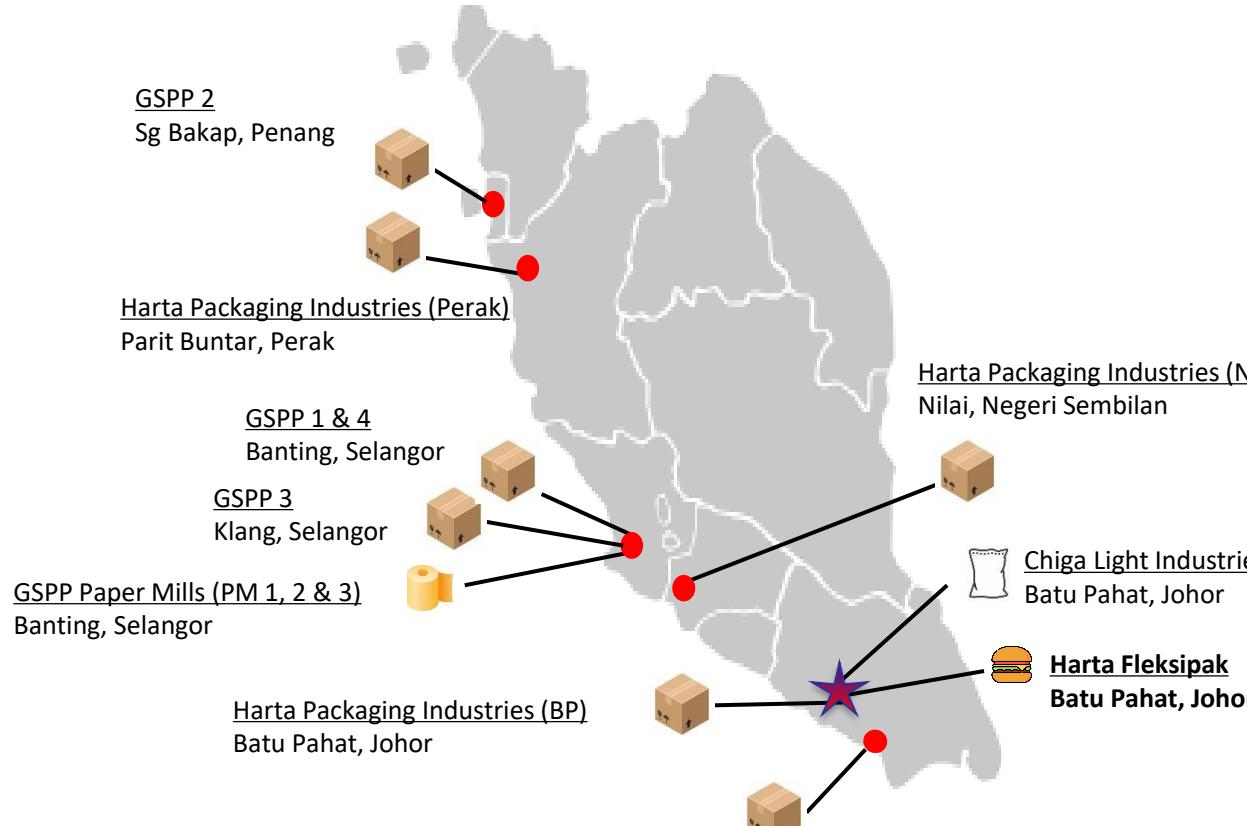

Company Profile

The flourishing hawker culture in Malaysia, Indonesia and Singapore has brought about rising demand for wrapping papers and paper bags in SEA region.

HPI Resources Berhad started its maiden Hawker Paper trading company, Harta Fleksipak in Year 2000 to fulfill the rising market demand for such product.

Today Harta Fleksipak is a full-fledged converting factory situated in Parit Raja Johor, churning out average 5751.17 MT per month of laminated food wrappers and paper bags for year 2024. It has successfully achieved Food Safety Management System Certification – ISO 22000, GMP and HACCP which is in tandem with the Corporate Policy of delivering the highest quality of customer service and products that are safe, reliable and cost effective to our value customers.

Product Details (1)

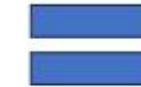

Hawker Paper and Burger Wrapper:

- **Hawker paper** is a food packaging product made using pulp and medium grade paper as its primary raw materials. It's commonly used for wrapping and packaging foods. This paper enhanced with PE (polyethylene) lamination to meet food safety standards, especially in premium or thick brown paper variants.
- **Burger wrapper** is designed to maintain food presentation and flavor. It helps in preserving and protecting ingredients, ensuring that food stays fresh, safe and appealing when delivered or served to customer. This burger wrapper also have PE (polyethylene) lamination to meet food safety standards.

Paper Bag and SOS Paper Bag:

- **Paper bag** is made using pulp and medium grade paper as its primary raw materials. These are typically used in food service for takeaways and are flat-packed for easy storage and distribution.
- **SOS (Square Bottom) paper bag** is made from kraft paper and white paper material. These include different sizes of SOS paper bags, ideal for packaging food containers. Their flat bottom allows them to stand on their own, making them highly practical for retail and food takeaway use.
